

Company Profile

Welcome to

Ethos

We align ourselves with enlightened management philosophy, regarding people as our major assets and working always at maintaining the highest possible level of communication and interpersonal relations.

Our team is caring and future oriented and our planning and programming soundly organized yet flexible. Our Company's commitment to its ethos guarantees our consistently giving of our best in any project we undertake.

Philosophy

Over the past ten years, EJCO has emerged as one of the most respected general contracting firms in Jazan. Time and again, we exhibited our capability to execute large complex projects and successfully complete them on time, within budget and without any accidents. Our reputation of being excellent, resourceful and responsive is a result of our values that are ingrained in us since inception:

Company History

***Emaar Jazan Company (EJCO)** was formed in August 2007 as a sustainable and continuously improving contracting company with an objective to provide reliable and quality services to clients, fostering lasting relationship with the Government and build trust with trade contractors, suppliers and employees.*

***EJCO** was the dream of **Mr. Ali Mana Al-Mesaed** and **Mr. Samir Ahmed Ali Sahli** and drew heavily on their intellectual and funding capabilities and has today resulted in a growing and expanding firm. In the last few years, **EJCO** has experienced massive expansion and has proven itself through various public and private sectors projects. Our propensity to face and adapt to heavy competition and emerge as one of the most credible contracting company is what differentiate us.*

***EJCO** operates by both directly participating in the tendering process of large projects and also through strategic alliances. We are one of the few companies that can successfully undertake projects through out the kingdom of Saudi Arabia.*

Ali Mana Al-Mesaed
Board of Directors

Management Speaks

Our dream is to make Saudi Arabia the most vibrant country and financial capital of the region. We know that to achieve such dream, infrastructure would play a crucial role. Hence, we formed EJCO to help Saudi Arabia realize its dream of becoming a leader in this region. We had also decided that we will never compromise on our basic principles and will aim to become the preferred contracting company in the Kingdom. We have already initiated some strong steps in that direction and we will realize our dream soon.

Management Speaks

Samir Ahmed Ali Sahli
General Manager

There were already many contracting companies in Saudi Arabia when we started, but we wanted to stand out through our quality and relationship that we build with our clients, suppliers, government and our employees. We are happy to share the fact that we have achieved phenomenal success in this journey and are known today as one of the few trustworthy companies which honour its commitments.

Management Speaks

Unlike other companies, we encourage our employees to innovate. This saves not only time, but money as well for our clients. Through the development of realistic strategies and ambition over the years , we have made our distinct mark in the contracting field and are proud of our achievements. We are sure that in the years to come, EJCO will play a crucial role in Saudi Arabia's rise as the leader in this part of the world'.

Engr. Walaeldin Ibrahim
Executive Manager

VISION, MISSION & GOAL

OUR VISION

We want to be known as one of the leading company firm of Saudi Arabia that is also known equally well internationally. We want to be known for our quality services, innovative approach and excellent execution of projects. We aim to exceed our client's expectation with our commitment and efficiency. We want to

MISSION

We are committed to offer our best to every project that we undertake. We believe in providing excellent services to all our clients. We will abide by the codes of conduct, government policies and work with highest level of integrity and honesty. All our projects shall meet all established standards of workmanship, quality, timeline and budgets

GOAL

EJCO offer wide spread contracting services in all Saudi Arabia during our new strategy 2019 to 2023 and we applying Modern management systems to Promote quality, safety and environmental awareness to decrease costs and improve our profit margins and create a positive culture throughout all our company segments.

EJCO Strategy

EJCO choose the external & Organic growth strategy at the same time to expand in our business. This Mergers allow companies to rapidly gain traction to get faster results in short time and cut costs this give us more expanding fts in a new Contracting business.

Economic Intent

EJCO identified and measured our key profit drivers and then , developed our strategy and focused on the most important ones to grow them without increasing costs and make business more profitable & more efficiency.

Our Biggest Asset

Our EJCO Staff is Biggest Asset and highly respect for proven expertise and capabilities in their respective specialties and executed major projects ahead of schedule, and within budget completions on and according to the best safety and quality standards

Market Segment

We began operations on small and medium scale projects, but today we are also present in the large scale projects for the Government, semi-government and private sector. We have a reputation of successful delivering projects on time, budget and quality.

Our Management Practices

We believe in:

- * Process reengineering helping us reevaluate the exiting business processes.
- * Benchmarking/performance measurement allowing us to compete against set standards.
- * Kaizen for continuous improvement culture and an environment for excellence.
- * Learning and implementing internationally acclaimed best practices.
- * Getting ourselves evaluated and certified by ISO, EFQM and other certification bodies to ensure excellent quality standards.

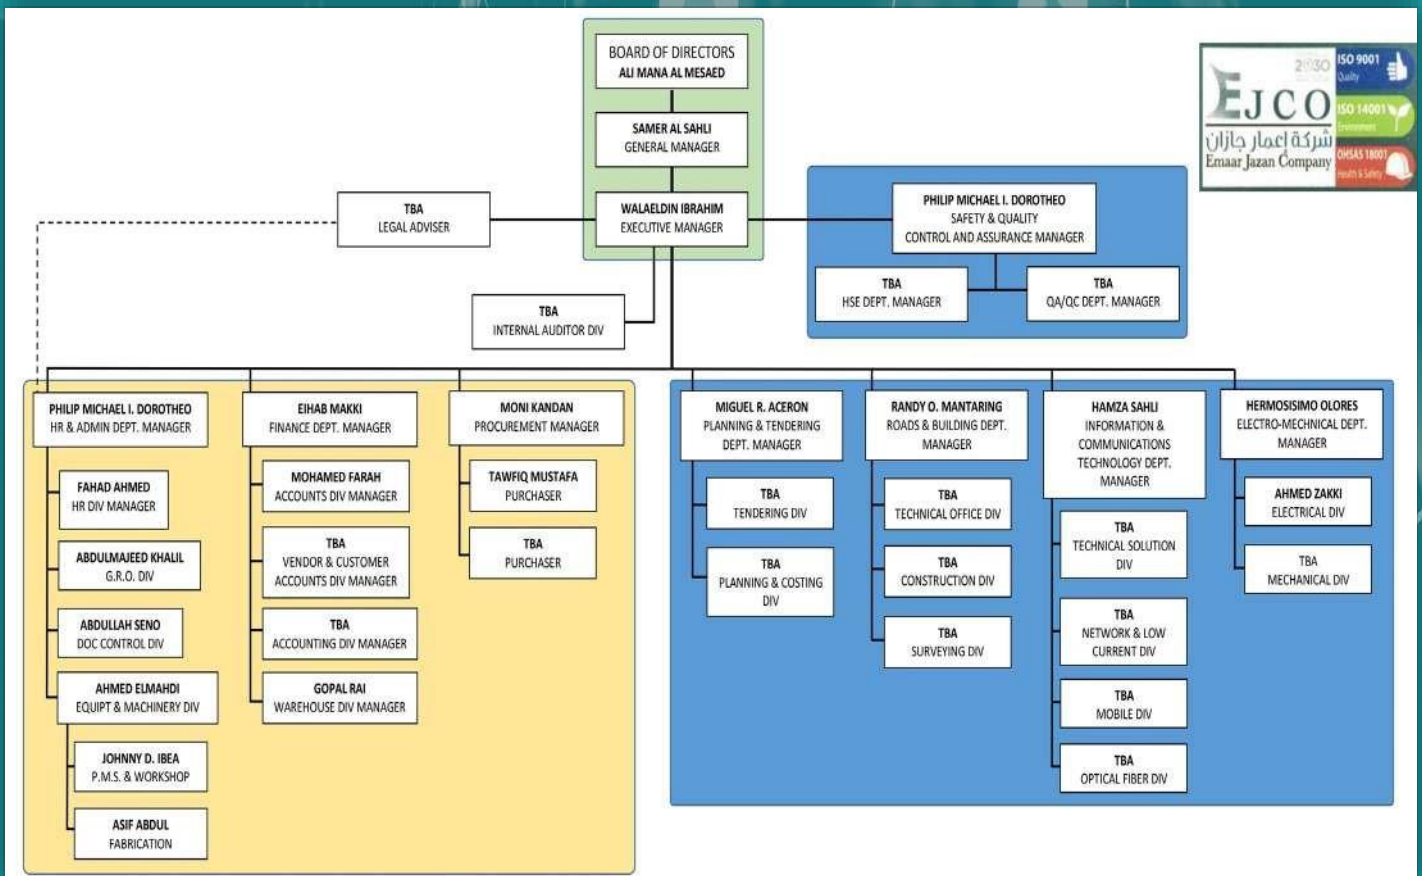

EJCO management processes commence with understanding the works, the achievable timeframes and the conditions under which the works are performed.

EJCO Organizational Chart

We follow a flat structure that fastens decision making and bring efficiency. A representation above details the general structure, however some departments may have a different structure that the one described below.

Every management has its own team of qualified employees that ensure the management principles are followed and projects are completed under the agreed conditions.

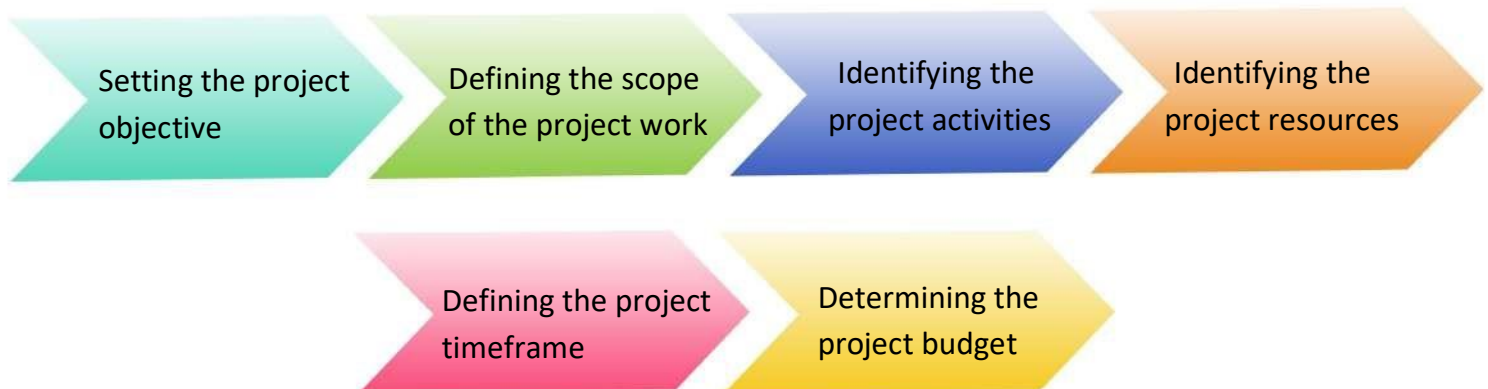

Project Management

EJCO project management systems provide for effective project management and control. We use ERP System that allows for accurate costing, planning, monitoring and controlling which is fully integrated with our management .

All our project at EJCO will care about following steps:

Project Control

EJCO control all projects by ERP system to monitor execution phase of the project and involves tracking the progress of the project at key points in the plan, to determine the progress made versus the plan. Identifying situations where there is a discrepancy between the plan and the actual progress made and if there is a discrepancy identify the reason for the discrepancy and then put in place actions to get the project on track.

رئيس مجلس الإدارة / Board of Directors

Our Sectors

In **EJCO** Provide contracting services for Construction and Operations & Maintenance fields in three different sectors Road and Building Sector, Electromechanically sector, Information and Communication Technology Sector. Our sectors Utilized the most current technology to provide high quality in work production and implementation.

Road and building sector (RB) shall ensure the availability of resources for Construction and Preventive and corrective Maintenance Service Packages include Pest Control service, Cleaning Services. our RB Provide the following services **Building and Residential Housing, Site Preparation and Temporary Facilities and Civil Infrastructure**

Road & building

Electro-Mechanical

Information Communication and Technology

Maintenance

Our Sectors

1. Building and Residential Housing services :

- ❑ Offices
- ❑ Commercial Buildings
- ❑ Clinics
- ❑ Schools, Laboratories
- ❑ Dining Halls, support shop and Security Buildings
- ❑ High-rise Buildings
- ❑ Iconic Landmarks/Buildings
- ❑ Hospitals
- ❑ Government Buildings
- ❑ Residential Housing
- ❑ Complex of Community Villas
- ❑ Community Buildings
- ❑ Parks

2. Site Preparation and Temporary Facilities

Site preparation and construction work for temporary facilities includes the following:

Site Preparation: Clearing and grubbing, rough grading, leveling, and compaction.

Landscaping (hard and soft): Paved areas such as streets and sidewalks, traffic circle, driveways, retaining walls, and soft-scape, which includes grass, plants, trees, flower beds, etc., along with installation of water sprinkler and irrigation/drainage system.

Temporary Facilities: Temporary access roads and storm drainage system. Temporary security fences and gates, and temporary camps: portable housing, kitchens and utilities, water supply and treatment system, fire water, temporary fire station, lighting, first aid utilities, and all other support facilities required in temporary facilities intended for projects under construction.

3. Civil Infrastructure

Civil Infrastructure and Underground Utilities Construction work includes construction of:

- Highways
- City Roads
- Bridges
- Tunnels

Electromechanical sector

Electromechanical Sector (EM) shall ensure the availability of resources for Construction and Preventive and corrective Maintenance Service Packages for **Electromechanical Sector** provide the following services **Underground Facilities, Electrical Works, Mechanical Works and Civil Infrastructure**

1) Underground Facilities

- Underground Piping
- Electrical Utilities
- District Cooling Plant
- Storm Water Construction
- Drilling Water Wells
- Water and Sanitary Sewer Distribution
- Underground Drainage System
- Fire Protection System including Fire Stations

4. Electrical Works

We have expertise in all electrical works and electrical repairs, installations and safety inspections, indoor and outdoor installations. We do internal and external wiring, switch gear maintenance, panel boards, installation of ELCB, Fire alarm and fire extinguisher/blanket inspection Electrical system preventive corrective maintenance. EM Sector provide the following electric works

A) High voltage

- Electrical substations
- Power distribution grids
- Installation of transformers
- Circuit breakers/ switchgear

B. LV Panels / Room

- *Bus Bar Rise*
- *Cables and Wires*
- *Low Current system*
- *CCTV System*
- *SMTV System*
- *Isolators*
- *Wiring Accessories*
- *Fire Alarm System*
- *Fire Fighting*
- *Lighting Control System*
- *Central Battery System*
- *Generator Set*
- *Earthing System*
- *Lightning Protection*
- *Cable Tray and Trunking*
- *Structured Cabling*
- *Central Battery System*
- *Aircraft warning Lights*
- *Lighting Control System*
- *Earthing System*
- *Lightning Protection*
- *Underfloor Trunking*

C. Mechanical Works

Our EM Sector provide complete mechanical services for all types of large and small projects, assist and design -build. We can provide Mechanical Service, Preventative Maintenance and Mechanical Installations by the following :

- **Commercial buildings** WE provide new and renovations Mechanical Systems Installation heating, ventilation air conditioning and plumbing, piping systems of med gas, pure water, radioactive waste, process, etc.
- **High rise residential** we provide Mechanical systems installation heating, ventilation air conditioning and plumbing light industrial and specialty piping mechanical installation specialty piping systems of med gas, pure water, radioactive waste, process, etc.

1) Air Conditioning service

In our O&M Sector we provide clean , maintenance and operation all type of air conditioner without any mess like a Window & Split , packaged air condition.

Sector

2) Plumbing services

We are ready to respond to all plumbing needs in building, from installing a new dishwasher, redesigning your bathroom or fixing any leak. Our specialists are focused on providing the best solution for your building to be water safe proofed and functional.

3) Heating, ventilation, and air conditioning (HVAC) Systems

Our Scope of Duct works:

- ☐ Fabrication of Galvanized Iron Ducts
 - ☐ Installation & Insulation
 - ☐ Fixing of duct
 - ☐ Air outlets
 - ☐ Machine connection
 - ☐ Volume control damper, Fire Damper,
 - ☐ Sound Attenuators
 - ☐ Fans
 - ☐ Splitter Damper with all accessories
 - ☐ Access doors
- Heating, ventilation, and air conditioning (HVAC)

4. Scope of Machine Unit Works:

- Installing of indoor machine
- Installing of outdoors machine
- Direct Expansion Machine Works (FAN COIL UNIT)
- Direct Expansion Machine Works (C&U)
- Copper Piping
- Testing and Commissioning

5. Scope of Chilled Water Pipe Works:

- Chilled Water Pipe installation
 - Supports
 - Malleable Iron threaded fittings
 - Butt weld fitting with insulation including Canvas cloth vapour barrier, including all fittings, accessories, Valves
 - Testing Commissioning

6. Fire Fighting

EJCO offers total solution in Fire Detection, Fire Alarm and Fire Extinguishing System for the protection of entire range of Industries and Application such as- Power plant, Office building, Residential buildings and Factory sheds, etc.

One of our main functions is Design, Supply and Installation of Fire Fighting System. We provide total fire-fighting solution in most prestigious developments around KSA.

We are well managed by a team of qualified and experienced fire officers, engineers, skilled technicians and mechanics ready to take on any job of whatsoever nature and volume.

Sector

Information, Communication & Technology (ICT) SECTOR

It is newest sectors of EJC deals with providing comprehensive, innovative and latest ICT solutions for establishments like Airports, Monuments, City centers, Railways, Highways, Retail, Commercial and Industrial hubs. Solutions include software, hardware and networks to enable high capacity data transfer that is crucial for this sector.

We provide solutions in the following categories:

1-Network solutions

Design, installation, administration and supporting the Local & Wide Area Network (LAN & WAN) based on latest platforms like Windows or Linux OS. These include server solutions as well.

2-Data Center Solutions

Our ICT Sector can construct of a data center and harness all data center works like electricity, building, roofing, communications works from within and outside the organization and deploy them for cabling and Wireless Infrastructure and we works with you to design world-class voice and data network infrastructures that are right for your company's needs.

3-Wireless solutions:

Best in class services are provided by Our ITC for WiMax, WiFi, VHF/UHF, Microwave and VISAT solutions under challenging environments. Correctly designed and reliable wireless services improve your productivity and helps in keeping costs under control.

4 - Mobile Communication

We work in our ITC sector closely with almost all the telecom operators to install their GSM, GPRS, UMTS, and VoIP networks. We provide Mobile Communication solutions for troubleshooting, improvement in network performance & Service Quality, service fulfilment, infrastructure management, and network management systems.

5-Video Surveillance

We provide complete networked security and surveillance solutions. Our focus is on highquality, realtime video transmission that is integrated with digital video storage devices, motion detection and tracking mechanisms, number plate recognition and physical security systems.

Sector

6. In Building Signal Solutions

Our ITC provide several technologies of In -Building **Signal Solutions** and we having all required experience and expertise to offer Full Signal solution including design/ consultancy, Indoor Active & Passive Solutions, Testing, Commissioning and optimization.

Our signal solution used to receive the weak signal by distance, topography, building structure, and/or other reasons. We are so confident in the quality of our signal solution , we used in houses, hotels ,tunnels, oil rigs, mines, navy ships and trains

ICT Products & Services

Our ICT offers products and services to our CUSTOMERS by the following products:

- ❑ **Mobile communication products** , we offering feeder, cables, antenna, microwave, measurement instrument and any customer needs product for GSM, UMTS, LTE.
- ❑ **Wireless products** - we offering TETRA/ TETRAPOL, WLAN & WiMax, VISAT television & radio; radio -link networks; LMR/PMR; and HF .
- ❑ **Communication accessory-** We offering Jamming and Anti -jamming systems, Wireless security, Systems encoding, Amplification system, Microwave system, Surveillance systems, Radars system, UHF /VHF systems, RF Tracking, Filters, Satellite communication, Mobile satellite.
- ❑ **Smart home systems** - We offering wireless speaker systems and boosting systems (We provide a unique boosting systems solution for all types of signals such mobile signals, WLAN signal, Radio signal at building, Vehicle, Ships, etc.).
- ❑ **Fibber and Copper cables** - we offering all types of Cables Solutions SMF ,MMF ,CAT 5,6

The fact that the products and brands offered by ITC at EJCO are approved by all major players / end -users in Saudi Arabia gives confidence when installing these items at their job sites.

FIBER OPTIC SOLUTION

Our **ICT** handle all OSP / ISP construction requirements for physical layer connectivity, laying and splicing and terminating services for new builds, rebuilds or upgrades you need to make sure your OSP/ISP infrastructure is ready to deliver against those expectations.

We have all of the necessary equipment to build, repair, and maintain, indoor/outdoor OSP/ISP network solutions networks. Our equipment includes bucket trucks, splice trailers, boring machines, fibre meters, fibre detectors, Optical Time Domain Reflectometers (OTDR), and Wavelength Division Multiplexing (WDM) testing equipment.
